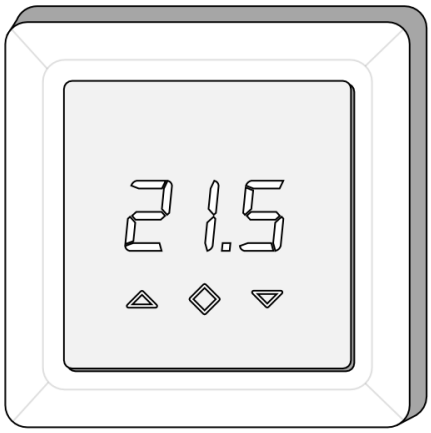
Factory resetting a Powered Room Thermostat

When to factory reset a Powered Room Thermostat

You may need to reset a Powered Room Thermostat if you are swapping which Genius Hub device is included onto, or if you are trying to clear some of the error codes.



How to factory reset the Powered Room Thermostat

To factory reset a Powered Room Thermostat:

- Ensure that the Powered Room Thermostat is powered on.
- On the front of the device, press the right and centre buttons down for 20 seconds.
- During the 20 seconds **rES** will be displayed on the screen.
- When **rES** is no longer displayed, the device is factory reset.

How to add the Powered Room Thermostat to a Genius Hub

The Powered Room Thermostat is now factory reset to a default state, to add it back onto the system again go to the 'Doctor' on the app which is under the 'Main Menu'.
